Project Design Phase
Solution Architecture

Date:	1.07.2025
Team Id:	LTVIP2025TMID52456
Project Name:	Measuring the pulse of prosperity: An Index of economic freedom analysis
Maximum Marks:	2 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
-
